

For Immediate Release

LOYOLA, MCGILL MEET IN
FRANK "SHAG" SHAUGHNESSY CUP GAME

The Loyola Warriors play host to the McGill Redmen this Saturday, October 9th at 2:00 P.M.

Besides being another chapter in the heated cross-town rivalry between the two schools, the game takes on added significance in that to the victor goes the coveted Frank "Shag" Shaughnessy Memorial Cup. This Cup was donated by Canadian Schenley in 1968 as a tribute to the late "Shag" Shaughnessy, one of sports' all-time legendary figures.

This week's contest will be a "do or die" effort for the Loyola gridgers. In light of last weekends loss to Bishop's, the Warriors must get past the Redmen in order to remain within striking distance of the first place Gaiters. The first and second place finishers in the Q.U.A.A. are scheduled to meet in a seeded conference game at the end of October.

Head Coach Doug Daigneault was disappointed but not discouraged after last week's loss. "A review of our game films showed us making numerous fundamental mistakes. If we can correct these we'll be in the ballgame against McGill" said the Loyola mentor.

LOYOLA'S GRID PICTURE TO DATE

Loyola	19	Oswego	0
Loyola	24	R.M.C.	0
Loyola	7	Bishop's	41

SOCCER

The Soccer Warriors will match skills with Laval University this Saturday, October 9th, at 2:00 P.M. at the Quebec City School.

Winning their first four games, Coach Harry Hus' contingent have continued where they left off last season when they went to the National finals before being stopped by Memorial University of Newfoundland in overtime.

This year the National Invitational Intercollegiate Soccer Tournament will be held November 12 and 13 at Laurentian University in Sudbury, Ontario. The Q.U.A.A. will once again send the league winner as their representative at the Tournament.
